And some running sound from the gearbox...

Now it's even louder and more frustrating. The car is in Cruise Control

With the music on I don't hear it:

Don't skip, something interesting coming now...

Time to catch up...

This is the first time I drive this long without any music. Conclusion: Music is vital:

Right now I'm keeping the pedal down, but the car won't accelerate..

This is one of the situations where some extra HP would have been great:D.

Did you get in a similar situation with your Duster? What's the top speed you reached with it? Leave a comment.
