Teacher is part diary, part inspired description of Ashton-Warner's teaching method in action. Her fiercely loved children come alive individually, as do the unique setting and the character of this extraordinary woman. Ashton-Warner devised a method whereby written words became prized possessions for her students. Today, her findings are strikingly relevant to the teaching of socially disadvantaged and non-English-speaking students.

Teaching on Solid Ground

To be successful, teachers of English in grades 6–12 need more than basic content knowledge and classroom management skills. They need a deep understanding of the goals and principles of teaching literature, writing, oral discourse, and language in order to make sound instructional decisions. This engaging book explores the pedagogical foundations of the discipline and gives novice and future teachers specific guidance for creating effective, interesting learning experiences. The authors consider such questions as what makes a literary text worth studying, what students gain from literary analysis, how to make writing meaningful, and how to weave listening and speaking into every class meeting. Professional learning and course use are facilitated by end-of-chapter reflection questions, text boxes, and appendices showcasing exemplary learning activities.

Four Corners is an integrated four-skills English course for adults and young adults. Four Corners Student's Book A with Self-study CD-ROM, Level 3 is designed for low intermediate students requiring a thorough presentation of basic grammar, vocabulary, and functional language. Units 1-6 cover high-interest topics such as style, interesting lives, our world, personalities, and the environment. In Four Corners, multiple speaking activities in every lesson tied to measurable outcomes help students and teachers see the results of their learning. Additional 'Keep Talking' activities help students develop fluency. As with other levels of Four Corners, an extensive set of print and electronic course components is available to help develop students' communication and confidence.

Self-Study Teacher Research guides pre-service and in-service teachers in conducting and assessing classroom-based self-study research. Teacher education students are guided in developing a more consciously driven mode of professional activity as they pose questions and formulate personal theories to improve professional practice with the validation of colleagues.

Self-Study Teacher Research

This book sets out duoethnography as a method of research, reflective practice and as a pedagogical approach in English Language Teaching (ELT). The book provides an introduction to the history of duoethnography and lays out its theoretical foundations. The chapters then address duoethnography as a research method which can be used to explore critical and personal issues among ELT teachers, discuss how duoethnography as a reflective practice can aid teachers in understanding themselves, their colleagues or their context, and demonstrate how duoethnography can be used as a pedagogical tool in ELT classrooms. The chapters are a range of duoethnographies from established and emerging researchers and teachers, which explore the interplay between cultural discourses and life histories with a focus on ELT in Japan.

Duoethnography in English Language Teaching

In this thought-provoking book, Frank Smith explains how schools and educational authorities systematically obstruct the powerful inherent learning abilities of children, creating handicaps that often persist through life. The author eloquently contrasts a false and fabricated "official theory" that learning is work (used to justify the external control of teachers and students through excessive regulation and massive testing) with a correct but officially suppressed "classic view" that learning is a social process that can occur naturally and continually through collaborative activities. This book will be crucial reading in a time when national authorities continue to blame teachers and students for alleged failures in education. It will help educators and parents to combat sterile attitudes toward teaching and learning and prevent current practices from doing further harm.

The Book of Learning and Forgetting

William Kilpatrick's recent book *Why Johnny Can't Tell Right from Wrong* convinced thousands that reading is one of the most effective ways to combat moral illiteracy and build a child's character. This follow-up book--featuring evaluations of more than 300 books for children--will help parents and teachers put his key ideas into practice.

Books That Build Character

Jeff Anderson and literacy coach Whitney La Rocca take you into primary and intermediate classrooms where students are curious about language, engage with the world around them, and notice and experiment with the conventions all writers use. Instead of chanting grammar rules or completing countless convention worksheets, we invite young writers to explore conventions as special effects devices that activate meaning. Our students study authentic texts and come to recognize these \"patterns of power\"--the essential grammar conventions that readers and writers require to make meaning. The first part of the book introduces a vibrant approach to grammar instruction and sets up what you need to immerse yourself in the Patterns of Power process, inviting students to experiment and play with language. The second part of the book offers over seventy practical, ready-to-use lessons, including: Extensive support materials Over 100 mentor sentences, curated for grades 1-5 Student work samples Tips and power notes to facilitate your own knowledge and learning Examples for application In *Patterns of Power* Jeff and Whitney suggest that taking just five minutes from your reading workshop and five minutes from your writing workshop to focus on how the conventions connect reading and writing will miraculously affect your students' understanding of how language works for readers and writers.

Patterns of Power

A hilarious companion to *I Wanna Iguana*. Ever since their baby sister came along, Alex has been forced to share a room with his little brother, Ethan, and it's a nightmare. Ethan always breaks stuff, snores like a walrus, and sticks crayons up his nose. No hardworking, well-behaved, practically grown-up boy like Alex should have to put up with that! Writing letters to his mom convinced her to let him get his pet iguana, so Alex puts pencil to paper again, this time determined to get his own room. Though all of his powers of persuasion can't get his dad to expand the house, he does come through with a fun alternative to give Alex some space of his own.

Michael Bonner knew he wanted to be a teacher after his favorite college professor, Dr. Poulson, inspired him. The professor's passion and love for teaching prompted Michael to change his major and his life's direction. But nothing prepared Michael for the reality of a Title One school. Teaching is fun until a 7-year-old is assaulting you or you're dodging furniture being thrown at you. When you mix the craziness of a classroom with a marriage that was about to implode, anyone might want to quit. Smiling on the outside while feeling dead on the inside took this dedicated teacher to the breaking point. Michael knew he must change what was inside him, in his approach to life, or nothing would change anywhere else. So Michael took matters into his own hands to make four key paradigm shifts that helped him create a world of successful learning for his students and love within both the classroom and beyond. The result has been a transformation that's taken Michael far beyond the classroom as he inspires thousands across the country. Many agree teaching is an amazing profession but there's little discussion why so many teachers are leaving the profession. *Get Up or Give Up: How I Almost Gave Up on Teaching* shines a light into the internal battles and decisions educators face daily, and how we must make a conscious decision either to give in—or push through.

Get Up or Give Up

The second edition of the fascinating collection of essays on teaching art in secondary schools, boasting a new chapter on visual culture as well as extensive material on the changes that have occurred in this area since 2000. What kind of art would we like school and college students to produce? What kind of art do we want them to engage with? What is the process of this engagement? How should we organize the processes? By asking fundamental questions such as these, Richard Hickman and his team of contributors illustrate the new possibilities for art education in the twenty-first century and draw out the implications for classroom practice - making *Art Education 11-18* the definitive guide to the subject in the postmodern era.

Art Education 11-18

The definitive source for the groundbreaking ideas of the "Spectrum of Teaching Styles" introduced by Mosston and Ashworth and developed during 35 years in the field. This book offers teachers a foundation for understanding the decision-making structures that exist in all teaching/learning environments and for recognizing the variables that increase effectiveness while teaching physical education. In this thoroughly revised and streamlined edition, all chapters have been updated to include hundreds of real-world examples, concise charts, practical forms, and concrete suggestions for "deliberate teaching" so that teachers can understand their classrooms' flow of events, analyze decision structures, implement adjustments that are appropriate for particular classroom situations, and deliberately combine styles to achieve effective variations. As in prior editions, individual chapters describe the anatomy of the decision structure as it relates to teachers and learners, the objectives (O-T-L-O) of each style, and the application of each style to various activities and educational goals. For physical education teachers.

Teaching Physical Education

From the author of *The Pleasing Hour*: A "moving and deeply absorbing" novel of painful truths and the refuge of fiction set in a New England prep school (Newsday). A Chicago Tribune and Publishers Weekly Best Novel Fifteen years ago, English teacher Vida Avery arrived alone and pregnant at the elite Fayer Academy. Living on the campus off the coast of New England, she worked to become a beloved fixture of the school—and to shelter herself and her son, Peter, from a painful secret she left behind. Then she accepts the impulsive marriage proposal of ardent widower Tom Belou, and the prescribed life Vida has constructed begins to come apart. As Peter bonds with Tom and his new stepsiblings, Vida retreats further into the books she teaches. To embrace life and a chance at happiness, she will have to face the nightmares of her former self—and shed the pain she has held onto for far too long. Following her multiple award-winning debut, *The Pleasing Hour*, Lily King has written a "domestic drama with the adrenalin-fueled beating heart of a thriller" (Elle). "King is a wonderfully engaging writer who creates characters and situations we can't resist." —The

While challenging the teacher as hero trope, *We Got This* shows how authentically listening to kids is the closest thing to a superpower that we have. Cornelius identifies tools, attributes, and strategies that can augment our listening.

We Got This

"We can do better, but expectation alone is not enough. We need answers and examples like the ones Gianna and Brook provide with great insight from research and practice and great compassion for teachers and students. My hope is that this book will become a touchstone for all of us." -Carmen Farina, Chancellor of New York City Schools
"Positive, supportive relationships with children help them develop socially and emotionally and help you to effectively manage your classroom," writes Gianna Cassetta. She shows you an approach to creating that environment that can actually be planned for, taught, and supported from the first day of school-or anytime you want to reset your classroom community. Gianna has been a teacher and leader, and the classroom management strategy she shares in *Classroom Management Matters* shifts you away from professionally draining rewards-and-consequences systems that threaten children rather than connect with them. Instead of tips and techniques Gianna presents a plan for explicitly teaching children how to be effective learners and accountable members of the classroom. You'll quickly learn to: know your students better and understand the causes of individuals' misbehavior assess children's development along a provided social-emotional continuum-just like any other skill you teach teach these self-management skills to support a positive classroom and academic growth set and maintain boundaries with students respond to disruption with effective teaching language. With reflection questions, classroom examples, and summaries of supporting studies from researcher Brook Sawyer, *Classroom Management Matters* helps you be a learning leader in the classroom instead of an authority. "I'll show you detailed strategies that prevent and minimize your difficulties with students," writes Gianna, "so you can focus on constructive action that will have a lasting, positive impact."

The carnival rolls in sometime after midnight, ushering in Halloween a week early. The shrill siren song of a calliope beckons to all with a seductive promise of dreams and youth regained. In this season of dying, Cooger & Dark's *Pandemonium Shadow Show* has come to Green Town, Illinois, to destroy every life touched by its strange and sinister mystery. And two boys will discover the secret of its smoke, mazes, and mirrors; two friends who will soon know all too well the heavy cost of wishes. . .and the stuff of nightmare. Few American novels written this century have endured in the heart and memory as has Ray Bradbury's unparalleled literary classic *SOMETHING WICKED THIS WAY COMES*. For those who still dream and remember, for those yet to experience the hypnotic power of its dark poetry, step inside. The show is about to begin.
